

# Video Monocle

Zistos' Video Monocle provides a completely covert means of viewing images obtained from any Zistos WalkAbout<sup>®</sup> pole camera system.

## Video Monocle Features:

- Large, vivid color images
- Form fitting eyecup keeps any light from escaping to maintain covert status
- Completely interchangeable with alternative body-worn detachable WalkAbout display
- Compatible with all Zistos systems through **VisionFlex<sup>®</sup>**

## Video Monocle Uses:

- Ideal for tactical missions where stealth is essential to maintain visual dominance
- Lightweight monocle affixes to identical helmet mounting bracket used for PVS-14 night vision monocle
- Can be used as a stand alone optical device held directly to eye when removed from the adapter bracket
