

# Extension Poles

Zistos Extension Poles are rugged, lightweight, portable gooseneck poles, which accept any Zistos camera and connect to any Zistos display.

## FEATURES

- 10 models available in sizes ranging from 2ft to 20ft
- Designed for maximum extended length yet portable when retracted
- Extremely rugged and lightweight
- 1ft flexible gooseneck to set camera orientation
- Quick disconnect from WalkAbout<sup>®</sup> display
- Submersible, waterproof and oil resistant
- All non-conductive fiberglass construction, unless otherwise noted
- Rugged, easy to use locking collars between all sections
- All have 10ft coil cords (2 foot coiled), except Baton, which has a 5ft coil cord (1 foot coiled)
- Removable rigidizer tube supplied with all poles (except baton) provides stability for the gooseneck
- Compatible with all Zistos systems through

**VisionFlex**<sup>®</sup>
