

# Under Vehicle Inspection Trolley

The Under Vehicle Inspection Trolley (UVIT) expands your line of sight to the undercarriage of any vehicle, allowing for a quick and thorough inspection.

- Maneuvers easily with long reach, sees entire truck underside from one side of the vehicle
- Right angle camera can be rotated 180° for any view
- Designed to minimize operator fatigue - no crouching required, wheeled trolley supports its own weight.
- Bright video image sees more than a dim inverted mirror image
- Camera not included
- Compatible with all Zistos systems through **VisionFlex**<sup>®</sup>

UVIT-BASE
