

WalkAbout[®] Universal Harness

The WalkAbout Universal Harness provides an easy and comfortable way to use WalkAbout systems hands free that is available in a range of sizes.

Features:

- Works with either the standard WalkAbout or the split WalkAbout mounted on the chest plate
- Supports the TandemView[™] display configuration with the WalkAbout monitor mounted on the rear
- Easy and intuitive to use
- Does not get tangled when stored
- Quick disconnect on both waist straps allows for quick and easy use
- Can be configured for either shoulder
- Wide range of adjustment allows for wearing over other gear and different operator sizes.
- Berry compliant
- Supplied in pouch for storage

Standard WalkAbout mounted on chest plate

WalkAbout LCD mounted on chest plate with the WalkAbout base on waist strap. Walkabout base may be worn on belt is desired.

WalkAbout LCD mounted on the rear. WalkAbout base can be mounted on chest plate to balance weight making it more comfortable to wear.
